

Press Release

American Teleservices Association Thanks Educators At Thanksgiving

Don Williams, President of ATA SCC, presents turkeys to Debby Day, Elementary School Principal

The South Central Chapter (SCC) of the American Teleservices Association (ATA) expressed its gratitude to the staff of a Hurst, Texas Elementary School for Thanksgiving on November 22, 2006.

American Teleservices Association SCC President Don Williams handed out Free Turkeys to every School Employee (from the custodial staff to the Principal). Williams said; "...as members of the ATA we enjoy the privilege of conducting America's business over the telephone. Most of our employees are parents and many are single parents. We're grateful to the people who dedicate their lives to the education of children and wanted in a small way to say Thank You to these unsung people."

"Thank you...the turkey was fantastic and a huge encouragement" said Staci Aldredge, elementary school nurse.

About American Teleservices Association:

The American Teleservices Association (www.ATAconnect.org) represents channel users and suppliers that initiate, facilitate, and generate telephone, internet, and email sales, service, and support. Contact centers offer traditional and interactive services that support the e-commerce revolution, provide specialized customer service for Fortune 500 companies, and generate annual sales of more than \$900 billion.
